SQL Safari

Lab Handout

Draw an Entity Relationship Diagram for the Database

```
// animal

{
    "id": 1,
    "name": "Tony",
    "type": "Tiger",
    "age": 59,
    "enclosure_id": 1
}
```

animals		
PK	id	SERIAL INT
	name	VARCHAR
	type	VARCHAR
	age	INT
FK	enclosure_id	INT

Tips

- You will be working in pairs/groups
- Practise good pair programming hygiene
 - Take turns driving/navigating
 - Give everyone a chance to speak
 - Add, commit and push regularly to GitHub (we will check!)
 - It is not a competition
 - Let us know if you are having issues in your pair/group
- Remember to create your database (createdb database_name) if it's the first time you are cloning/pulling the code
- Take short break now and again
- Individually submit the same GitHub link via the usual form by 9am tomorrow
